Emergency Deficiencies Correction Funding Application

Initial Submission Date: 9/10/2012 3:05:03 PM **Application ID:** 74
Resubmittal Date:

Please provide as much of the requested information as possible. SFB staff will assist in developing required information that is not currently available.

District Name: Ft Thomas Unified District

Superintendent: Dr. Leon Ben

Contact Person: Derrick Bryce

Contact Phone Number:

Contact Email: dbryce@ftthomas.k12.az.us

School Site: Fort Thomas Elementary School

Buildings: 1005 Old Main Elementary School

Description of Problem

Please include a detailed description of the issues, as well as a description of and a copy of any professional studies, citations or reports from government entities, recommended solutions, and any cost information or estimates. If additional space is needed, please attach.

The dry chemical agent fire suppression system in the cafeteria kitchenb is past the end of its useful life. A recent review by the regulating authority having jurisdiction expressed concern with the system and described the system as unlikely to pass inspection at the next review and inspection period. The system is above the cooking stoves and ovens used to prepare meals for the students. The system is believed to be part of the original construction of the building in 1963. The estimated cost as developed by a consulting construction management firm is $15,000 to $20,000.

Project Category: Special Systems

Are any of the above-described issues in buildings or part of buildings that are leased to another entity, including a district sponsored charter school? N

Available Funding Was money to address this issue included in your adopted budget for this fiscal year? **?**

Current unencumbered building renewal fund balance (Fund 690):	$0.00
Current fiscal year building renewal expenditures:	$0.00
Current balance of unrestricted capital:	

Please outline any associated insurance coverage.

The kitchen fire suppression system is deficient due to age and is past the intended life-cycle. The District is actively pursuing funding opportunities to address this deficiency as well as others. case 3 length is 199 case 3 length is 220
