RE: Fecal Contamination Technical Specification,
Limited Project Oversight and
Post Remediation Sampling
Hayden-Winkelman Intermediate School

Dear Mr. Gregorich,

Pursuant to our meeting on October 25, 2012, Dominion Environmental Consultants Inc. (Dominion) has prepared an estimated fee proposal to produce a technical specification and perform limited project oversight and post remediation sampling for the fecal contamination due to rodent infestation in the 800 Building at the Hayden-Winkelman Intermediate School.

Based on the above referenced parameters, the estimated fee proposal and scope of work is as follows:

50 Field Technician Labor Hours @ $75.00 per hour	$ 3,750.00
10 Project Manager Labor Hours @ $85.00 per hour	$ 850.00
6 CIH Labor Hours - Technical Specification @ $135.00 per hour	$ 810.00
130 Fecal Coliform Swab Samples @ $85.00 per sample	$11,050.00
24 Post Remediation Close-Out Report Labor Hours @ $75.00 per hour	$ 1,800.00
8 Clerical Labor Hours @ $35.00 per hour	$ 280.00
1,200 Miles @ $.44 per mile	$ 528.00
Total Estimated Fee Proposal	$19,068.00

The previously referenced estimated fees for the labor hours and samples are in accordance with Dominion's Arizona State contract. The estimated number of hours and samples are calculated on Dominion's review of the Building 800 configuration. If the actual number of labor hours or samples are different than the estimate, the District will only be charged for the actual number of samples and hours utilized to complete the project. The above estimates will not be exceeded without the District's approval.

In the interim, if you should have any questions or need any additional information please feel free to contact me at any time. Thank you for allowing Dominion the opportunity to provided you with this proposal.

Sincerely,

Basilio Marcos, AHERA Cert.
Vice President
