Staff Analysis: I will need to talk with the district on a point of access that does not seem to allow the emergency vehicles to be able to pass through the fire/bus lane. If you could come and talk with me what it is set up this way I would appreciate that information before we move forward. Also, there is parking involved on one map but not the other and would like to understand it there are parking stalls or if it was an oversight on one of the overviews.
