National Clean Diesel Campaign

EPA Clean Diesel News: 4/02/09

The Frequently Asked Questions documents for the RFAs under the Clean Diesel Recovery Act Programs have been updated and posted. Please visit the following link:

<http://www.epa.gov/otaq/eparecovery/index.htm>

The documents are right under their respective RFAs.

The FAQs will be updated every Wednesday, with April 22nd, 2009 as the final update. This means that any questions regarding the RFAs must be submitted to cleandiesel@epa.gov by **April 17, 2009**.

Note: Our program works to compile all questions and post answers as quickly as possible. However, due to the high volume of questions we receive, if your question is not addressed in a timely manner, we encourage you to thoroughly read the RFA, the clean diesel website, as well as **all three** of the FAQ documents as many questions are simply variations of one another.
