**Join community leaders, school officials, health and transportation professionals, law enforcement officers, parents and neighbors for this opportunity.**

Communities around the country are using Safe Routes to School (SRTS) Programs to make it more safe and appealing for children to walk and bicycle to school. Federal legislation has recognized the value of SRTS Programs and is providing funding for States to establish Programs.

SRTS Programs grow from community's concerns about safety, health and traffic. A combination of education, encouragement, engineering and enforcement strategies are used to address these concerns and make Safe Routes to School a reality.

This course provides participants with the knowledge and skills to develop sound SRTS Programs based on community needs and conditions, best practices and responsible use of resources. The day concludes with participants developing an action plan.

**Overview of course agenda**
