Description of Problem

Please include a detailed description of the issues, as well as a description of and a copy of any professional studies, citations or reports from government entities, recommended solutions, and any cost information or estimates. If additional space is needed, please attach.

Test entire elementary school to determine working intercom port assignments, reprogram system, replace parts as necessary to bring system to proper operation for school safety.

Project Category: Special Systems

Are any of the above-described issues in buildings or part of buildings that are leased to another entity, including a district sponsored charter school? N

Available Funding Was money to address this issue included in your adopted budget for this fiscal year? **N**

Current unencumbered building renewal fund balance (Fund 690):	\$0.00
Current fiscal year building renewal expenditures:	\$0.00
Current balance of unrestricted capital:	\$295,000.00

Please outline any associated insurance coverage.

District liability insurance will not cover the cost of intercom repairs in this situation. The district is currently using its Unrestricted Capital funds to pay for HVAC lease payments, bus purchase, building repairs no longer covered by Building Renewal Funds (including roof replacements), and technology software licenses (including firewall, filtration, virus protection, web hosting, email, telephone, Schoolmaster and special education IEP-Pro). The state has made significant cuts to capital funds for school districts and remaining funds will not meet all of our needs.
