Notes/Disclaimers:

The depth of the existing asphalt is only an estimate. Additional depth may require additional charges.

The Removal of the asphalt has been bid for that function alone and does not include excavation of the base or subbase. If at the time of the Removal, it is determined that contamination of water has weakened either the base or the subbase, additional charges would be negotiated to correct the unforeseen problem.

If upon the Removal of the asphalt, it is found that structures exist below the asphalt such as concrete footings, abandoned pipes, metal supports, etc., an additional charge would be negotiated to remove these obstructions if they would impede or prohibit grade consistencies.

There will be an extra charge based on time and material for the removal and replacement of dirt or soil if hardpan, saltpeter or caliche is found unless otherwise noted.

No permits, fees, bonds, compaction test, concrete, striping bumper blocks, signs (No signage of any kind, electrical signs of any kind, barricades, stop signs, handicap signage, warning or beware signs) weed killers, water meter, or staking in price unless noted in contract.

Additional charges may be applied resulting from circumstances beyond the control of Sunland Asphalt which prohibit the above mentioned work from being completed as scheduled. (i.e., unmoved vehicles, trailers, sprinklers, vandalism, etc.)

Any pre-existing ADA compliance issues are excluded from contract unless specifically stated in proposal.

NOTE: IMPORTANT NOTICE: Due to the severe volatility of the world oil market, the price on this proposal is for work completed before 1/11/2018. If work is completed after this date, regardless of cause or fault, pricing will be adjusted to reflect material costs at the time of delivery to the project. All materials and work affected by the oil market are dependant on availability of materials and pricing at the time of completion of the work.
