School: District Project

Site Address: New school - Address not established yet

Project Title: School #9

Project Detail: The District proposes to use its Adjacent Ways Funds for the construction of a half street around the perimeter of School #9 in the Tierra Montana subdivision. The costs include asphalt, curbing, gutters, drains, sidewalk and depressed curbing. The home developer, Taylor Morrison, is in the process of constructing the streets in the subdivision that School #9 will be built. This request is for the validation of strictly the District's portion of the cost for the street being built around the perimeter of the new site. Taylor Morrison's cost estimate for the entire street improvement is \$215,791. The District's portion would be half of that amount, or \$107,895.50.

All elements of the this portion of the project are detailed in the Cost Estimate and Schedule of Values prepared by Taylor Morrison. This request is strictly for the half-street improvement. There will be a separate request for qualified on-site Adjacent Ways expenses at a later date.

School #9 will be under construction during the 2019-20 fiscal year and is expected to open in August of 2020 and is an SFB funded school.

Project Date Range: 9/1/2019 **TO** 12/31/2019
Total Project Cost: \$215,791.00 **Adjacent Ways Cost:** \$107,895.50
