ACE's warranty shall be waived and of no effect should Customer direct or authorize ACE to pave on unstable subgrade or subgrade containing frost and Customer shall be responsible for any and all resulting damage or required repairs. If Customer requests that the top lift of asphalt be placed at a later date, the cost for all clean up is the Customer's responsibility.

If ACE provides subcontracted construction stakes and/or subcontracted engineering services, the Customer agrees to indemnify and defend ACE from and against any and all claims, demands, costs or expenses, including attorneys' fees, resulting from or related to these services, including drainage of water as to direction and amount, both during and after performance of the Work.
