| Project Title: Fire Lane Project | | |
| Project Detail: | Construct MAG Class 'A', 8 Inch concrete pavement fire lane along the west side of Richard E Miller Elementary School. The new fire lane will tie into the existing concrete fire lane, thus creating a full loop around the campus. The improvement will assure safe entry and exit from the District property to the public road for fire department vehicles. | |
| Project Date Range: | 12/27/2021 | TO 5/1/2022 |
| Total Project Cost: | \$624,430.07 | Adjacent Ways Cost: \$429,403.57 |
| Board Meeting Date: | | |
| Validation Status: Review Pending | | |
| Staff Analysis: | 5/4/2020: please use SFB's SOV form for the SOV (you can still include the original as reference). Please also include the aerial view with overlay. 5/12/2020: please revise the SOV to show the mostly onsite ADJW work, with the top curb of the new lane and the upper RH finger of work being offsite ADJW. 5/13/2020: Please move the irrigation, landscape and chain link fencing over to district cost. I've reached out to Stephanie on utilities, drywells and stormwater/drainage. Hope to hear more tomorrow. 5/14: pls adjust amount in calcs. | |
