Hi Elaine.

Can you do an adjacent ways request for this. Chris has the quote it's over 59 so the sfb board will need to approve first

Chris,

As we discussed, I am approving of adding the bus loop to Homestead Avenue instead of the proposed changes to the main parking lot since this would hinder Fire Department access. If you have any questions or concerns please let me know.

Hi -

Do you have a minute to give us your feedback? There are two proposals below that we reviewed during your visit.

Thank you!

Chris Rietz

Hi -

Attached is a rough plan for the bus loop to be added to Homestead. After considering your feedback and the safety of our students, we feel this is the best option for our future bus loop.

Please let me know your thoughts. Thanks for your help!

Chris

To: <william.treach@ruralmetrofire.com>

Hi -

We met earlier this year at Agua Caliente Elementary School to talk about one of our bus loop options.

You had shared some concerns with it and I agreed that the proposal was not the safest option. Would you be willing to summarize/confirm the concerns that we discussed?

Attached is the aerial view of the proposal. The black dot is the location of the fire hydrant. The fence is halfway through this drive area where the yellow arrows are located. This drive goes up to the front of the school.

The concerns that we discussed:

- Emergency Truck access to the front of the school with fencing limiting the space for vehicles to drive up to the front
- Accessibility from the parking lot fire hydrant to the school. There is a plan to have a fence through the driveway blocking it.
- If we have an opening in this fence, then we potentially have families walking in between the buses or emergency trucks from the parking lot to the school.
- Buses would be parked to load and unload students in a designated fire lane. We do not have room for 4 needed buses in front of the designated fire lane no parking areas.

Please let me know your concerns and if you have any questions.

Thank you for your time in helping us!

Chris Rietz
