Dear Superintendent:

Pursuant to A.R.S. 15-995, "Each adjacent ways project proposal to be funded through this special assessment must be filed with the school facilities board and include the project cost estimate. If the entire project cost for the adjacent ways project is greater than fifty thousand dollars, the school facilities board shall approve or deny the project within sixty days after receipt of the filing of the project proposal by the school district and the expenditure shall not be made unless the school facilities board validates both of the following within sixty days after receipt of the filing of the proposal:

1. The project that is proposed to be funded by the assessment is in compliance with state laws relating to adjacent ways projects.
2. The proposal selected by the school district does not contain additional work that is not listed in the adjacent ways proposal submitted by the school district."

The School Facilities Board has reviewed your request for validation of Adjacent Ways expenditure of \$346,824 for on-site work to remove and replace the asphalt fire and bus lanes at Dobson Elementary School, ID 2446, and has found this request to be an appropriate use of Adjacent Ways funding.

Thank You,

Nick Loper, on behalf of

Andy Tobin
