Project Title:	27320 PH1 MASTER PLAN			
Project Detail:	New fire lanes for emergency services access for sporting events located at the far northeast corner of the property. The additional parking lot will not be funded by the Adjacent Ways. This is a subproject of a Master Plan Renovation Project at Mountain View HS.			
Project Date Range:	5/24/2021	TO	7/30/2021	
Total Project Cost:	\$201,932.00	Adjacent Ways Cost:	\$201,932.00	
Board Meeting Date:				
Validation Status:	Review Pending			
Staff Analysis:	<p>This is part of a large remodel using district funds. The application states parking lot, and adjacent ways does not cover parking. The district says this is a breakout of just the adjacent ways portion. SFB staff asked the district to present the total of this portion. (Fire lane and parking) so it is clear on what the breakout of the costs are.</p> <p>The application still addresses a parking lot. The project still presents itself as a single project so I would expect a cost of the whole project (parking lot) and a break out of the fire lane. I don't see any line items for asphalt and could there be a better identification of concrete "slabs" on the drawings. I don't see anything for curbs. Please attach a map of the entire campus. My question is this just a parking lot. Would a fire lane here be required by the fire marshal?</p> <p>The above questions still exist. 4-26-2021</p>
