<b>Staff Analysis:</b>	8/15/22: the SOV and the drawing show all as District cost yet the app has District and ADJW amount. Looking at the drawing it shows most or almost all to be onsite ADJW work. Please revise the SOV form to reflect this. (Use the SOV form from our webpage, with no added columns (the one included has added columns). Please include an aerial view ( a google earth snapshot is acceptable) and the SOV from the vendor. 9/15/22: Please revise the SOV so it shows the other project cost besides ADJW costs. Otherwise it looks like the rest of the project doesn't exist. And PLEASE use the SOV form from our webpage (attached). The one presently used in this application has columns added(quantity and cost per unit). 12/8/22: Please provide backup sheet from the GC for the ADJW cost (Chasse) and info for the overall costs of the school project on the SOV. The SOV lists a Project Grand Total and an Adjacent Ways Grand Total. Please update the project and adjacent ways totals on the application so they and the SOV totals match.
