

Adjacent Ways Proposal for Project Funds

10/6/22

Joseph City Unified School District

Title: Installation of a Culvert on an Un-Maintained County Road

We are requesting funds to purchase a culvert to put at an intersection of unmaintained county roads where our school buses travel daily. The intersection is at 8th Street and Baird Ave. on the attached map. Because of erosion it makes the road hard to travel. We are working with the community utilities and the county to complete the installation of the drainage culvert appropriately.

Labor for digging and installation will be covered by the District.

Thank you,

A handwritten signature in black ink, appearing to read "Bryan Fields". The signature is fluid and cursive, with the first name "Bryan" and the last name "Fields" clearly distinguishable.

Bryan Fields, Superintendent
