Board Meeting Date:

Validation Status: Review Pending

Staff Analysis: Request a meeting to be scheduled with the District and Sunland and your Liaison to understand the Color overlay and the Engineering project site documents and the full scope of work for this project. In addition, the district will need to upload another copy of the proposal from Sunland without the "#" in its file name. The schedule of values will also need to be updated to break out the costs associated with all work proposed in sections 31 & 32 to remove the fees associated to that work and be categorized in the last section of the schedule of values document (taxes, bonds, fees etc.) After the meeting is held, the district will resubmit this application (do not start a new application with these changes).

12/9/2022 - Please submit a revised Schedule of Values. Sunland Asphalt will be providing the district with a revised document that will apply some costs associated to district cost to Adjacent Ways cost. Please make sure you are updating the application with the corrected appropriate dollars for total project cost and Adjacent Ways cost.
