Project Title: Building Addition & Track Improvements

Project Detail: Voter approved bond-funded project on an active Pre-K through Grade 8 school site to include components of new construction, demolition and renovation to existing facilities and improvements. The project design will include a newly constructed administrative office structure, single story, approximately 4,900 sq. ft. in an area of an existing playground. The existing playground will be relocated and repurposed or demolished and new playground equipment, fencing and shade structure constructed and installed at a different area on the same site and campus. The project also includes renovations, upgrades and improvements to an existing track and athletic/play field area already existing on campus, to include improved field grading and drainage, new track surface and new outdoor bleacher structure to seat approximately 1,000 spectators. Project scope includes necessary site preparation work surrounding the newly constructed building, playground area and track and field improvement area.
