Project Title: Bus Loop Improvements

Project Detail: We are in need of improving traffic flow for busses and hiring Concord General Contracting to study the issue. They will be working with DLR Group to assist with the design. The study phase to provide design concept options and associated budget for new drop off loop was approved previously by the SFB. This is now the JOC quote to do the work.

Project Date Range: 5/30/2024   **TO**   7/30/2025

Total Project Cost: $364,181.30   **Adjacent Ways Cost:** $339,371.62

Board Meeting Date:

Validation Status: Review Pending

Staff Analysis: 8/27/2024 - Now that the Schedule of Values has been submitted the application Budget section needs to be revised for the "Estimated Cost:Total Amount AND the Adjacent Ways Amount" (Please see highlighted Green: Project Grand Total and Highlighted Yellow: Adjacent Ways Grand Total).

4/12/2024 - Please provide the complete set of drawings. We can only assume that the Backstop and drinking fountain are on-site and are not eligible for Adjacent Ways funding use (per policy). The proposed fencing removal is to make way for the new bus loop, however, replacing with a new fencing would be considered a district cost. Please provide an Adjacent Ways Schedule of Values (found on our website) for this project to address the District contribution portion of this project as well as the on-site portions. Please update the Estimated Adjacent Ways amount in this application once the Schedule of Values is completed.

Board Decision:
