<b>Project Title:</b>	Desert Thunder Bus Lane Addition			
<b>Project Detail:</b>	Addition of a bus lane at the North end of the property to alleviate traffic congestion and grid lock at the front of the school campus during pick up and drop off times. Local law enforcement has recommended a geographical divide of traffic flow to alleviate congestion on the city streets and increase student safety. The new bus lane will enter and exit off of a feeder street rather than the main cross street and away from the main campus entry and exit points.
