5/30/25 The(SOV) for on-site and off-site and district cost, as well as the scope of work, is unclear due to the use of the Adjacent Ways Validation. ?Let's schedule a meeting to discuss this application so that the SOV and scope of work layout can be validated. (FYI, we will need to have the scope of work with the color overlay for the project)

I'm available on the days and times listed below.

Wed June 11th, 11:00 am - 12:00 pm

Thur June 12th 8:00 am - 9:00 am

Hi Chris,

While reviewing your application, we need some clarification on the scope of work being completed. Parking lots are prohibited from being validated using Adjacent Ways Funding. Please take a look at statute ARS-15-955 regarding the usage of Adjacent Ways Funding. Below are resources on Adjacent Ways and the required documents needed for validation.

These are the required documents to be submitted for approval.

(1) Vendor proposal

- (2) Site Map - Google Map of where the work is being done ( the district can do this to show the cross streets)
- (3) Vendor Site Map for the scope of work to be addressed. ( Engineering Drawings or Site overlay)
- (4) The vendor must complete the Adjacent Ways SOV ( Schedule of Values). (It is located on the adjacent Ways submission page under the YouTube logo.)
- (5) Adjacent Ways Validation Submission Application ( This happens automatically and is used in the board docs for your district submission, so it must align correctly with the project title.

**Board Decision:**
