Project Title: Marana High School West Student Parking lot repaving and stripping.

**Project Detail:** The student parking lot at Marana High School West requires repaving and restriping. This project includes designated bus and fire lanes from the parking area for both ingress and egress. The central section of the parking lot is classified as District costs, as indicated in the attached map. Both sections need milling and repaving due to the asphalt reaching the end of its service life. Although the asphalt has been maintained over the past 20 years, it is now beyond the point of feasible repair. If the schedule allows, MUSD aims to initiate this project within the 2025 budget year, before June 30, 2025. This project encompasses replacing and re-striping existing elements in their original form, with no modifications, additions, or deletions.
