Staff Analysis:	11/14/25 I will need to have the utilities on the district scope and the breakout of the proposal of the scope of work that is AJW and that of the district. I will need to have the AJW amount to reflect the SOV and the proposal that they match as well. I will need to have a new SOV that reflects the new Vendor proposal. SV 10/20/25 I need to have the scope of work in the project description. Also need the color overlay with the full scope of work. SV
