Notes:

- **Bid in Accordance with the 1 GOVERNMENTAL PROCUREMENT ALLIANCE (1GPA) Contract #22-15P-04 – Asphalt Products and Services - Awarded June 28th, 2022**
- **In order to hold pricing, this proposal must be signed and returned within 15 days from the bid date specified above. Due to the pricing volatility of our industry at the moment, Sunland reserves the right to update pricing at any time prior to start of work.**
- **Material pricing is good through 12-31-2025.**

- Sunland Asphalt routinely uses recycled material in hot mix asphalt products.
- Sunland Asphalt will not be held liable for any underground cables, electrical lines, water lines or any other underground obstruction not locatable or not buried to a depth less than 18" below the existing finished grade.
- Sunland is not liable for drainage on projects with less than 1% fall. Due to existing conditions and matching elevations of concrete curbs, buildings and/or asphalt, we may not be able to raise or lower elevations to achieve proper slope to prevent standing water, therefore ponding of water may occur.
- Pricing excludes night/weekend work, permits, fees, bonds, notifications, QC testing, utility adjustment hardware, gate loops, painting bumper blocks, permanent signage, herbicide, removal and disposal of existing fabric underlayment, water source, or survey/staking in price unless noted above. Any pre-existing ADA compliance issues are excluded from contract unless specifically stated in proposal.
- This bid assumes all portions of the proposal will be accepted. Line items cannot be accepted individually. If only portions of the proposal are desired, Sunland Asphalt must revisit the proposal and adjust pricing accordingly.
- Additional (downtime/mobilization) charges may result from delays beyond the control of Sunland Asphalt (or its subcontractors) which prohibit the above mentioned work from being completed as scheduled. (i.e., unmoved vehicles, disregard for Sunland traffic control, sanitation/delivery services, sprinkler runoff, etc.)

Contractor shall not be liable for damage to underground utilities which were improperly installed and/or backfilled.

- 10. WORK HOURS

Work called for herein is to be performed during Contractor's regular working hours as agreed to by the Owner and the Contractor.

- 11. NOTICE

Any notice or written claim required by the Contract to be submitted to the Owner, on account of charges, extras, delays, acceleration, or otherwise, shall be furnished within a time period, and in a manner to permit the Owner to satisfy the requirements of the Contract, notwithstanding any shorter time period otherwise provided.

Any indemnification or hold harmless obligation of the Contractor shall extend only to claims resulting to bodily injury and property damage and then only to that part or proportion of any claim damage, loss or defect that results from the negligence or intentional act of Contractor or someone for whom it is responsible. Nothing in this agreement shall require the Contractor to indemnify any other party from any damages including expenses and attorneys' fees to persons or property for any amount exceeding the degree Contractor directly caused such damages. Contractor shall not be responsible for fines or assessments made against Owner and Contractor. Contractor retains all rights of subrogation. Contractor's warranty shall be waived and have no effect should Owner direct or authorize Contractor to pave on unstable subgrade or subgrade containing frost and Owner shall be responsible for any and all resulting damage or required repairs. If Owner requests that the top lift of asphalt be placed at a later date, the cost for all clean up and remobilization is the Owner's responsibility.

If a soil sterilizer or herbicide is applied by Contractor, it is applied at the request of Owner in an effort to retard weed growth and Contractor makes no representation or guarantee that its use will have the intended effect. Owner shall indemnify, hold harmless, and defend Contractor from and against any and all damages, claims, costs or expenses, including attorneys' fees and costs, resulting from these services. Owner is advised to retain an independent licensed soils engineer for a study of the existing soils in order to recommend a specific pavement design.
