**Notes:**

- **Bid in Accordance with the 1 GOVERNMENTAL PROCUREMENT ALLIANCE (1GPA)  
 Contract #22-15P-04 – Asphalt Products and Services - Awarded June 28<sup>th</sup>, 2022**
- **In order to hold pricing, this proposal must be signed and returned within 15 days from the bid date specified above. Due to the pricing volatility of our industry at the moment, Sunland reserves the right to update pricing at any time prior to start of work.**
- **Material pricing is good through 3-31-2026.**
- **Sunland Asphalt routinely uses recycled material in hot mix asphalt products.**
- **Sunland Asphalt will not be held liable for any underground cables, electrical lines, water lines or any other underground obstruction not locatable or not buried to a depth less than 18" below the existing finished grade.**
- **Sunland is not liable for drainage on projects with less than 1% fall. Due to existing conditions and matching elevations of concrete curbs, buildings and/or asphalt, we may not be able to raise or lower elevations to achieve proper slope to prevent standing water, therefore ponding of water may occur.**
- **Pricing excludes night/weekend work, permits, fees, bonds, notifications, QC testing, utility adjustment hardware, gate loops, painting bumper blocks, permanent signage, herbicide, removal and disposal of existing fabric underlayment, water source, or survey/staking in price unless noted above. Any pre-existing ADA compliance issues are excluded from contract unless specifically stated in proposal.**

- The depth of the existing asphalt is only an estimate. Additional depth may require additional charges. The removal of the asphalt has been bid for that function alone and does not include excavation of the base or subbase. If at the time of the removal, it is determined that contamination of water has weakened either the base or the subbase, additional charges would be negotiated to correct the unforeseen problem. If upon the removal of the asphalt, it is found that structures exist below such as concrete footings, abandoned pipes, metal supports, etc., an additional charge would be negotiated to remove these obstructions if they would impede or prohibit grade consistencies.
- Complete removal and replacement of asphalt parking lots and/or roads are not represented to change the course of water runoff. A complete removal of asphalt may not eliminate water ponding, as it will follow the contours and grades of the original pavement. A complete removal of asphalt will not remedy pre-existing subgrade deficiencies. If drainage changes are suggested, an option for that work can be offered. Sunland Asphalt cannot be responsible for any pre-existing subgrade deficiencies. The depth of the mill and asphalt paving, as stated on the proposal, is represented as the average depth after compaction given the tolerances allowed per M.A.G. specifications.
- This bid assumes all portions of the proposal will be accepted. Line items cannot be accepted individually. If only portions of the proposal are desired, Sunland Asphalt must revisit the proposal and adjust pricing accordingly.
- Additional (downtime/mobilization) charges may result from delays beyond the control of Sunland Asphalt (or its subcontractors) which prohibit the above mentioned work from being completed as scheduled. (i.e., unmoved vehicles, disregard for Sunland traffic control, sanitation/delivery services, sprinkler runoff, etc.)

This warranty is in lieu of all other warranties, express or implied, including any warranties of merchantability or fitness for a particular purpose. Contractor shall not be responsible for special, incidental or consequential damages. Contractor shall not be responsible for damage to its work by other parties or for improper use of equipment by other industry standard practices and will override strict compliance and strict performance. Contractor makes no warranty regarding drainage where the slope provided or allowable is less than two percent (2%). Contractor's warranty does not extend to or cover settlement or cracking of asphalt or pavement due to expansive soils, improperly compacted utility trenches, or for failures caused by the inadequate compaction of the subgrade. Notwithstanding any provision to the contrary, Contractor shall maintain the types and limitations on insurance as shown on the attached certificate of insurance. Contractor is not required to waive any claims or rights of subrogation against the Owner or any others for losses and claims covered or paid by Owner's workers compensation or general liability insurance. Acceptance of the Certificate of Insurance constitutes acceptance of the insurance of Contractor, including any additional insured requirements. To the fullest extent permitted by law, Contractor agrees to protect, defend, indemnify, and hold harmless Owner from and against all liability, loss, claims, demands, damages, suits, costs, fees, fines, penalties, expenses, and causes of action to the extent caused by Contractor or any of Contractor's employees, agents, representatives, subcontractors, or suppliers. Nothing in this agreement shall require the Contractor to indemnify any other party from any damages including expenses and attorneys' fees to persons or property for any amount exceeding the degree Contractor directly caused such damages. Contractor shall not be responsible for fines or assessments made against Owner and Contractor. Contractor retains all rights of subrogation. - 20.        SOILS

Contractor will not sacrifice the quality or integrity by placing asphalt pavement on base course or subgrade that is unstable or subgrade containing frost, including top lifts or overlays when temperatures do not meet material specifications. Contractor's warranty shall be waived and have no effect should Owner direct or authorize Contractor to pave on unstable subgrade or subgrade containing frost and Owner shall be responsible for any and all resulting damage or required repairs. If Owner requests that the top lift of asphalt be placed at a later date, the cost for all clean up and remobilization is the Owner's responsibility.

If Contractor provides subcontracted construction stakes and/or subcontracted engineering services, Owner agrees to indemnify and defend Contractor from and against any and all claims, demands, damages, costs or expenses, including attorneys' fees, resulting from or related to these services, including drainage of water as to direction and amount, both during and after performance of the Work. If a soil sterilizer or herbicide is applied by Contractor, it is applied at the request of Owner in an effort to retard weed growth and Contractor makes no representation or guarantee that its use will have the intended effect. Owner shall indemnify, hold harmless, and defend Contractor from and against any and all damages, claims, costs or expenses, including attorneys' fees and costs, resulting from these services. Owner is advised to retain an independent licensed soils engineer for a study of the existing soils in order to recommend a specific pavement design.
