Project Title: Bus Loop speed humps

Project Detail: Install six speed humps in the bus loop that connects the main campus, the satellite classroom modular buildings, and the playground. The goal is to enhance pedestrian and vehicular safety, especially for students and staff moving between these important areas. The administration staff at DeGrazia School has brought this issue to the district's attention. Given the high pedestrian volume and the hazardous 90-degree turn with blind spots, installing speed bumps in the bus loop is necessary. This measure will significantly enhance safety for all users by slowing bus traffic and reducing potential conflicts between vehicles and pedestrians.

Project Date Range: 2/20/2026 **TO** 3/20/2026

Total Project Cost: \$12,458.87 **Adjacent Ways Cost:** \$12,458.87
