RE: SFB Sinkhole Project in Mayer

Check out these before and after images. Last year, Mayer Elementary School District needed to correct sink holes in their playground area. The SFB funded the project and it was quickly completed. Now, instead of sinkholes and safety fencing, students have full access to the Playground, just in time for spring!

This is an example of how the SFB partners with school districts to provide the BRG funding they need. How can we partner with you?

About the Arizona School Facilities Board

Created in 1994, the Arizona School Facilities Board (AZSFB) is a cabinet-level, state agency managing \$650 Million in state funding for K-12 school district facilities. The 10-member board meets monthly to grant financing for new school construction and funding to renew existing school facilities. AZSFB staff is a partner/advocate for school districts in facilitating successful Building Renewal Grant requests.
