Re: R&R Water Heater

Total Pages, Including Cover: 1

Midstate Energy proposes to remove and replace 400,000 BTU Cyclone Water Heater as per our technician's recommendations. We will disconnect all fittings, valves, electrical and pipe. Remove and replace water heater and expansion tank. Also Midstate will replace all fittings, valves and pipe as necessary. Restart unit and check for leaks and proper operation. Once complete, we will clean up area of any and all debris.

This proposal excludes any additional items that may become evident as a result of any work performed as outlined above. This proposal will only be valid for 30 days. We will complete these proposed repairs for the amount of:

Sales Total: \$19,695

Thank you for the opportunity to provide this service for our valued customers.
